## 2. What Our Class Is For

School should be a place where students can study with fun and get lots of knowledge and things they need in their social lives. Living life with fulfillment makes their mind and body better and healthier.

However, students who speak languages other than Japanese as their mother tongues are sometimes having a hard time understanding and talking in Japanese in their school life.

Our class supports them so that they can learn Japanese smoothly to enjoy their school lives in Japan. The other goal for us is to support the students to learn Japanese to enter high schools in Japan.

## 3. Who Our Class Is For

Our Japanese class is for students who are related to foreign countries, enrolled in public schools in Minato City, and feeling difficulties in understanding Japanese in their daily lives. Parents, the principal of their enrolling school, and the principal of our school discuss it before lessons start.
